Directcore Technologies,
Nairobi,

Dear sir/madam,

RE: APPLICATION FOR AN INTERNSHIP POSITION

I humbly request for an internship position at your company. I am a computer science student at JKUAT, currently in second year, and much passionate with all that goes around software development and management. Your company is a leading software development company that any enthusiast in the Technology field can wish to work in. I would really be thankful to learn much and in a realistic way in the Technology field at your company. My availability is from May 8th to July 3rd.

I wish to contribute to and get experience of the real world of Technology, preferably software technology, if allowed an internship position at your place. Please find my attached student ID in the next page.

I am willing to abide by your way of work and customs at your workplace.

Looking forward to a positive reply.

Yours faithfully,

Gift Nestah P.

JOMO KENYATTA UNIVERSITY OF AGRICULTURE & TECHNOLOGY

*"A University of global excellence in Training, Research,
Innovation and Entrepreneurship for development."*
